Re: FERC Project 2105, the PG&E re-licensing effort for the upper reach of the North Fork, Feather River

Dear Sirs:

Although I currently reside in the Los Angeles, California area, I am a property owner in the Lake Almanor area of Plumas County, California. As such, I am very disturbed to learn of PG&E's plan to install "thermal curtains" on Lake Almanor and Butt Lake as part of the FERC Project 2105 re-licensing. I believe that such a move would cause major environmental harm to those lakes while providing a very minimal improvement to trout habitat further downstream. I am therefore asking for your help in putting a stop to this plan.

Sincerely,

Eugene L. Cooper
