Subject: FERC Project 2105

Dear Federal Energy Regulatory Commission:

I am very disturbed to learn of PG&E's plan to install a "thermal curtain" on Lake Almanor and Butt Lake as part of the FERC Project 2105 relicensing. I believe that such a move would cause major environmental harm to our lakes while providing only a very minor improvement to trout habitat further downstream.

I am, therefore, asking for your help in putting a stop to this plan.

Sincerely,

Kim and Neil Hastings
