Attn: FERC Project 2105

To Who May Be Of Assistance,

I am extremely disturbed to learn of PG&E's plan to install "thermal curtains" on California's Lake Almanor and Butt Lake as part of the FERC Project 2105 relicensing.

I am a Lake Almanor (California) resident. My family, friends, neighbors and I are all fishermen and boaters that continually enjoy the recreation that Lake Almanor provides. That's why we moved up here!

I believe that "thermal curtains" would cause major environmental harm to Lake Almanor and Butt lake while providing only a very minor improvement to trout habitat further downstream. I am therefore asking for your help in putting a stop to this plan.

Respectfully,

Gil Grieze
