ATTN: FERC Project 2105

Dear Sir,

I am very disturbed to learn of PG&E's plan to install "thermal curtains" on Lake Almanor and Butt Lake as part of the FERC Project 2105 relicensing. I believe that such a move would cause a major environmental harm to those lakes while providing only a very minor improvement to trout habitat further downstream. The cost and maintenance of such a project is absolutely absurd. I am therefore asking for your help in putting a stop to this plan.

Thank you for time and consideration of this matter.

Sincerely,

Stephen Pezzullo
