FEDERAL ENERGY  
REGULATORY COMMISSION

October 8, 2004

To Whom it May Concern,

I am a property owner in the Lake Almanor basin. I am very concerned about PG&E's plan to install "thermal curtains" on Lake Almanor and Butt Lake as part of the FERC Project 2105 relicensing effort for the upper reach of the North Fork of the Feather River. I believe that such a move would cause major environmental harm to Lake Almanor and Butt Lake while providing an unknown amount of benefit to the fish and wildlife downstream. It seems unwise to destroy one habitat in the hopes of improving another. In addition, the loss of tourist and recreational revenue brought into the Lake Almanor basin would be catastrophic to the local community. I am asking you to please review FERC Project 2105 and vote against PG&E's relicensing plan to install "thermal curtains" on Lake Almanor and Butt Lake.

Sincerely,

  
Kerry Quevedo
