Attention: FERC Project 2105

Dear Commissioners:

We are very upset to learn of PG&E's plan to install "thermal curtains" on Lake Almanor and Butt Lake as part of the FERC Project 2105 relicensing. We believe such a move would cause major environmental harm to those lakes while providing only a very minor improvement to the trout habitat further downstream. We are therefore asking for your help in putting a stop to this plan.

Thank you very much.

Sincerely,

Joan and Ron Rhodes
