Subject: Thermal Curtains

ORIGINAL

Dear Representative:

RE: FERC PROJECT 2105

Please consider what the Thermal Curtains at Lake Almanor and Butt Lake will do to the economic and recreational value of these two lakes. The long term harm that this ill conceived project will do now and in the future to both these pristine lakes is unimaginable. In the future it will have a major impact on these lakes and this northeast recreational area of California. I urge you to put a stop to these proposed Thermal Curtains. We are residents of the Lake Almanor basin.

Sincerely,
Kent and Billie Jorgensen
