RE: Upper North Fork Feather River Project, FERC Project No. 2105

Ms. Bose,

While we are not residents of the Lake Almanor area, we have been vacationing and recreating at the lake for over 30 years along with other families and friends from our home area (SF Bay Area). We have spent thousands of dollars helping the economy of the Chester area. PLEASE uphold the agreement from the 2105 project so our kids (now adults) can also continue to enjoy the fun and fishing that beautiful Lake Almanor offers.

During your review of the Project 2105 Licensing, we ask that you do the following:

Honor and uphold the April 22, 2004 Settlement Agreement filed on behalf of the Project 2105 Licensing Group addressing reservoir lake levels, stream flows below project dams, water quality monitoring, wildlife habitat enhancement, and recreation enhancements.

Not allow any additional releases of cold water from Lake Almanor beyond that agreed to in the 2004 Settlement Agreement. The quality of water in Lake Almanor and the health of our fisheries are critical to our economy, our businesses and the quality of life of the families in our community.

Thank you for your consideration in this matter.

Ron and Laurie Brabo (Ronbrabo@gmail.com)
