Ms. Kimberly D. Bose, Secretary

Federal Energy Regulatory Commission

888 First Street, NE Room 1A

Washington, DC 20428

Subject: FERC Project #2105

Ms. Bose;

This letter is being written requesting immediate action by FERC on their Project #2105. This is a hydroelectric project located in Northern California in Plumas County owned and operated by Pacific Gas and Electric Company under FERC license #2105. A significant feature of the Project is Lake Almanor.

I am asking for your support in the PG&E re-licensing Settlement Agreement as previously agreed to in Project #2105, including the water releases from Lake Almanor as agreed to in that Agreement. Anything other than this would create significant negative impact to all of Plumas County as explained in the full text version of Project #2105.

Will you, and particularly all those copied in this letter, please provide me with the courtesy of a reply.

Respectfully,

Signature
