Washington, D.C. 20426

P-2105

FILED  
SECRETARY OF THE  
FEDERAL ENERGY  
REGULATORY COMMISSION  
2021 JUN -3 P 3:08

Dear FERC Commissioners,

The re-licensing process of Lake Almanor has been unnecessarily drawn out. The promises and good faith negotiations that were in the settlement agreement for the 2105 license should be upheld without change. That collaboration monitored the lake quality, the lake level, the flows, the increase in community facilities and much more. For the State Water Resources Control Board to change a single intent of the collaborative 2105 agreement is wrong and should not be considered by the Federal Energy Regulatory Commission.

Clearly the science shows that increasing the flows and making the flows only the coldest of water, will gravely adversely affect our lake, our environment and our community.

Thank you for considering the people of Lake Almanor, the fishery of Lake Almanor, the livelihood of our community and doing what is right, by supporting the collaborative settlement agreement for the 2105 license without the unreasonable and unnecessary change that was added by the State Water Resources Control Board.

Yours truly, 

Robert and Barbara MacArthur
