

Laurie Bilotta, Lake Almanor, CA.

Hello, I am writing in support of the controlled level of our beautiful lake as it has been in the past years. Our lakes beauty and health depends on a lake level that is not impacted by a greater drawn from her in order to benefit downstream fishing or whitewater kayaking. We have already seein the damage of a lower lake level the last two summers with blooming algae which is so detrimental and dangerous to animals and humans alike. We have now suffered the devastating Dixie Fire and still feel traumatized. Please help our community to not become prey to outside interests that will effect us more and not be contributors to our maintaining our beautiful, irreplaceable Lake Almanor. Please help us during these trying times. Sincerely, Laurie Bilotta.
