Subject: Water Temperature Report

Dear Mr. Livingston:

You filed on July 29, 2005, the Report on Water Temperature Monitoring and Additional Reasonable Water Temperature Control Measures required under Section 4(e) Condition 4D of the license issued October 24, 2001. You also filed on September 21, 2005, a letter clarifying your intent for filing the report with the Commission.

Your September 21 letter states that the Report was filed with the Commission for informational purposes only, and that additional work is required under Condition 4 before the water temperature efforts at the project are finalized. You ask that we not take any action on the Report at this time. We will abide by your request. If you have any additional information or questions about these matters, contact me at (415) 369-3335.

Sincerely,

PHILIP A. SCORDELIS
