

E5.3 AGENCY AND STAKEHOLDER RECOMMENDED MEASURES

Exhibit E9: Agency Consultation contains written comments from agencies and stakeholders on the draft license application and included their recommended recreation measures. Licensee's responses to these measures either indicate if a recommended measure was included with the final application or the reasons why the measure was not included. Since the draft license application and prior to completing the final application, Licensee held approximately ten meetings with agency and stakeholders to discuss the pros and cons of various Licensee, agency, and stakeholder recommended measures (proposals) for recreation resources.
